

GPSVerifier

GPSVerify app is available on iOS and Android! GPSVerify is a mobile app that lets you prove your time and location when doing a shop, using GPS technology. By using GPSVerify, you will earn GPSVerify points that will allow you to identify which independent contractors can be trusted and deserve first consideration for shop assignments!

Verify shopper location and time via their mobile phone

GPSVerifier utilizes mobile phone GPS and/or cell tower triangulation to verify a shopper's location and time while their shop is being performed.

Where can I get the GPS Verifier app?

GPS Verifier is available for iOS devices (iPhone/iPod/iPad) and most Android devices running Android version 4.4 or higher.

To download the app:

Android: <https://play.google.com/store/apps/details?id=com.surfmerchants.gpsverifier>

iOS (iPhone/iPod/iPad): <https://apps.apple.com/us/app/gps-verifier/id1475005148>

How do I use the GPS Verifier app?

URGENT: ALWAYS get your GPS Verifier code when you are the location of your mystery shop. Codes from other locations or times will NOT be accepted by SASSIE!

Getting a GPS Verifier Code

1. When you arrive at your mystery shop location, open the app. If this is your first time using the app, you'll see a splash screen with a button that says GPS Verifier This Location - otherwise, you'll see a list of GeoVerifications.
2. Click the GPS Verifier This Location button.
3. Once the app gives you a GPS Verifier Code, enter a name for this code (optional).
4. If you want to send yourself a copy of the GPS Verifier code, click Email a Copy (optional).
5. Click the Back button to go back to the list.

Using a GPS Verifier Code in SASSIE

1. Open the app and click on the GeoVerification for this shop.
2. Find the GPS Verifier code field on the SASSIE survey. If the survey requests a GPS Verifier code, it will be located near the top of the survey.
3. Enter the GPS Verifier code. If the code matches the shop location and time, it will be accepted.

How do I delete a GPS Verification?

To delete a GPS Verification, open the app to see the list of GPS Verifications. Then delete the GPS Verification as follows:

iOS (iPhone/iPad): swipe the GPS Verification you want to delete, then click the Delete button.

Android: click the red X next to the GPS Verification that you want to delete.
